

Nepal Geotechnical Society

भूप्रविधि समाज नेपाल

Institutional (Non-Individual) Category

Institutional Members are organizations or institutions involved in geotechnical engineering or related fields that wish to support the objectives and activities of NGS. These organizations play a vital role in promoting geotechnical engineering, research, education, and professional development in Nepal.

Who can be a member?

Institutions, companies, universities, research organizations, non-profit organizations, government bodies, and other similar entities involved in geotechnical engineering, civil engineering, construction, environmental sciences, or related fields can become Institutional Members. These organizations may have a vested interest in advancing geotechnical knowledge, fostering collaborations, and supporting the professional growth of their employees or members within the geotechnical community.

However, the institution should have at least one employee who is member of ISSMGE/NGS/ International Geotechnical Institutions.

How to be a member?

Membership Fee:

NPR 100,000

Validity:

The membership will be valid up to **1 year**.

Renewal Process:

Institutional Members need to renew their membership annually by paying the membership renewal fees of **NPR 10,000** before the specified deadline.

Application Process:

- Interested institutions should complete the institutional membership application form available on the NGS website.
- Submit the completed application form along with the membership fee to the NGS office or through the designated online payment portal.
- The application will be reviewed and approved by the NGS Membership Committee.

Special benefits for NGS Institutional Members

- Endorsement in NGS Newsletter: Institutional Members receive recognition in the NGS newsletter, reaching professionals, researchers, and stakeholders, showcasing commitment to geotechnical engineering.
- Endorsement on NGS Website: Institutional Members' logos and names feature prominently on the NGS website, publicly acknowledging their association with NGS and dedication to promoting geotechnical engineering in Nepal.
